

【Important】About the response of the imaging core to the declaration of the state of emergency

The university's response to the declaration of a state of emergency on Thursday, January 7 has been reported to be Level 1. Imaging core takes the actions from Tuesday, January 12 as follows

Level 1

No restriction for the usage hour. Use of each room by a large number of people is prohibited (10 people or less per a room is allowed).

Please take care (we will care) the following as before

- Alcohol disinfection of hands, wearing of gloves and masks, and temperature check are required when entering the microscope room.
- A magnet at the entrance of the microscope room should be used to post the whereabouts and number of users.
- Users should disinfect the area around the microscope with alcohol after use.
- Alcohol disinfection of common areas such as doorknobs, light switches, and slippers by core personnel.

Imaging Core
