

Notice of summer holidays for Imaging Core

We would like to inform you that Imaging Core will be closed for the summer holidays.

The Imaging Core will be closed on Friday, August 18th and 21 (Mon.) for two days during the summer holidays.

The microscope room will be open during this period, but the Imaging Core staff will not be available.

If problems arise, they will basically be handled on or after the 22nd.

However, if you encounter any problems, please contact us by e-mail regardless of the nature of the problem.

In addition to Imaging Core's summer holidays, microscope manufacturers will be closed during the summer holidays

Especially from August 11 to August 17, it will be difficult or impossible for us to respond to you.

We appreciate your understanding and cooperation.

Imaging Core
